

the **Federal Register** at 58 FR 68629 on December 28, 1993.

DMDC will use personal data from the record system identified as S322.10 DMDC, entitled 'Defense Manpower Data Center Data Base,' last published in the **Federal Register** at 59 FR 55462 on November 7, 1994.

Agencies must publish routine uses pursuant to subsection (b)(3) of the Privacy Act for those systems of records from which they intend to disclose this information. Otherwise they must obtain the written consent of the record subjects to disclose outside the agency. Moreover, the routine use, with respect to the disclosure of a record, must be compatible with the purpose for which it was collected.

E. Description of computer matching program: The AFRH, as the source agency, will provide DMDC with a magnetic computer tape which contains the name, SSN and date of birth of each resident. Upon receipt of the computer tape file of residents, DMDC will perform a computer match using all nine digits of the SSN of the AFRH file against a DMDC computer database of personnel/employment/pay records of all uniformed services officers and enlisted personnel who served on active duty or retired, including individuals receiving any Federal compensation, pension or annuity from the VA or OPM. Matching records (hits) based on the SSN, will produce the member's military retired or retainer pay, civil service annuity and VA compensation and pension. The match results will be furnished to AFRH. AFRH is responsible for verifying and determining that the data on the DMDC reply tape file are consistent with AFRH's source file and for resolving any discrepancies or inconsistencies on an individual basis. AFRH will also be responsible for making final determinations as to positive identification and the amount of Federal payment received by the resident as a result of the match.

The AFRH will provide a magnetic computer tape in a format defined by DMDC on a semiannual basis. This file will contain the name and SSN of approximately 2,700 residents whose records DMDC will verify.

The DMDC computer database file contains approximately 10 million records of active duty and retired military members, including the Reserve and Guard; the VA compensation and pension records on military retirees; and the OPM compensation and annuity records on military retirees.

F. Inclusive dates of the matching program: This computer matching

program is subject to review by the Office of Management and Budget and Congress. If no objections are raised by either, and the mandatory 30 day public notice period for comment has expired for this **Federal Register** notice with no significant adverse public comments in receipt resulting in a contrary determination, then this computer matching program becomes effective and the respective agencies may begin the exchange of data 30 days after the date of this published notice at a mutually agreeable time and will be repeated annually. Under no circumstances shall the matching program be implemented before the 30 day public notice period for comment has elapsed as this time period cannot be waived. By agreement between AFRH and DMDC, the matching program will be in effect and continue for 18 months with an option to renew for 12 additional months unless one of the parties to the agreement advises the other by written request to terminate or modify the agreement.

G. Address for receipt of public comments or inquiries: Director, Defense Privacy Office, Crystal Mall 4, Room 920, 1941 Jefferson Davis Highway, Arlington, VA 22202-4502. Telephone (703) 607-2943.
